Salford
Manchester.

RE Premier installations.

Dear Sirs.

Premier installations have been long term suppliers of pipe work and fabrications for PZ Cussons for 14yrs and in that time have built a strong working relationship due to professionalism, quality installations and competitive pricing. Since moving to the new Agecroft facility and at the old Kersal Vale site Premier installations have completed a number of key projects on a timely basis. The service that they provide and the turn around in which they deliver is second to none which is a necessity in a FMCG environment.

Andy Ellams

Process development manager
